Description

The Featherlite gooseneck trailer Model 3112 is a great flatbed for contractors and landscapers. This open gooseneck car trailer was designed to be a multi-purpose champ, adept at hauling skid loaders and construction materials alike. The Model 3112 is based on the Model 3110 car trailer, so it can be outfitted with many of the 3110's options, including the popular skid loader and power lift packages. The 3112 gives users a lower loading height than other comparable flatbeds - and a lower price too! This is a trailer you'll want behind you no matter what your hauling needs are. The flatbed trailer Model 3112 has a standard 8'6" width. It comes in lengths of 20', 24', 26' and 30'. Cargo is loaded and unloaded on a standard 3112 using two 7' ramps that can be stored under the trailer. The 3112 rides on two or three rubber torsion axles, depending on the size. Other options include a full width fold-up ramp, a bi-folding ramp, airliner track and a treadplate floor.
